(R) EVOLUTION

ABOUT NPC

National Productivity Council (NPC), under Ministry of Commerce & Industry, Government of India, is an apex organization to promote productivity culture in the Country, founded in year 1958 and has been contributing to the growth of industries across all the sectors.

ABOUT APO

The Asian Productivity Organization (APO) was established on 11 May 1961 as a regional intergovernmental organization. APO has 20-member countries in it and India is one of the founder members represented by National Productivity Council. These member countries assist each other in their productivity drives in a spirit of mutual cooperation by sharing knowledge, information, and experience.

ABOUT THE PROGRAMME

Industry 4.0 stands for the fourth industrial revolution. While Industry 3.0 focused on the automation of individual machines and processes, the importance of Industry 4.0 lies on the fact that it concentrates on the end-to-end digitization of all physical assets and their integration into digital ecosystems with value chain partners. Generating, analyzing and communicating data seamlessly underpins the gains promised by Industry 4.0, which networks a wide range of new technologies to create value.

OBJECTIVES

- Basic understanding of Industry 4.0
- Understanding the Change of Industrial Processes
- Understanding the Principals of Industry 4.0 - Industry Assessment
- Understanding the Requirements of Industry 4.0 Assessment
- Practical Experience of Industry 4.0 Assessment
- Deriving clear recommendations from the assessment results and based on the company's willingness/ ability to change for sustainable Industry 4.0 readiness

PROGRAMME COVERAGE

- The importance of Industry 4.0 and how to assess digital innovation readiness in an Organization

- Digital Transformation, Internet of Things, Artificial Intelligence, Industry 4.0 Model and Methods

- Digitalization of Industrial Processes, Industry 4.0 Assessment, Assessment of Major Processes (Production, Intralogistics, Services Resources, IT, Organizational Structure, Culture)

- Industry 4.0 Maturity Index

- Developing the management presentation including the recommendations

METHODOLOGY

- Class-room training, Group exercises, and Industrial visit
- Offsite development of the recommendations to become Industry 4.0 ready
