Dear Sir / Madam,

**Sub.: Residential Training Programme on "Energy Conservation in Buildings" at
Tirupati from 25th February to 01st March, 2019**

National Productivity Council (NPC), is a premiere techno-managerial consultancy and training organization under Ministry of Commerce and Industry, Government of India, has the distinction of relentlessly working towards increasing the levels of productivity in Indian Industry for the past five decades.

We are glad to announce the residential training programme on "**Energy Conservation in Buildings**" at **Tirupati from 25th February to 01st March, 2019** for executives from Government, Industry, Institutions, Agencies and other Organizations.

The programme is designed with a view to highlight the need for Energy Conservation in the organization and to equip the participants with the best practice concepts and their application for implementing the same in the system. The programme would be highly interactive in nature.

Please nominate a few of your executives at the earliest, as accommodation is limited and nominations will be accepted on a first-come-first-serve basis, only.

Thanking You,
Yours Faithfully,

(G Saravanan)
Regional Director

Encl: Brochure

Energy Conservation

Energy conservation is the effort made to reduce the consumption of energy by using less of an energy service. This can be achieved either by using energy more efficiently (using less energy for a constant service) or by reducing the amount of service used (for example, by driving less). Energy conservation is a part of the concept of eco-sufficiency.
