INTRODUCTION

Bringing out cultural change to sustain safety efforts has always been a challenge to the well trained safety professionals. Hence it is necessary to address various issues a safety professional faces as a front end champion.

OBJECTIVES

Safety Professionals need to have additional skill sets in influencing others to initiate a safety programme and sustain it across the organization. This programme specially designed to equip the Trained Safety Professional in skill sets to cope up with such challenges.

COVERAGE

- Verification of current style of functioning Vs expected style
- Role clarity.
- Hazard Identification and Risk Assessment (HIRA)
- Contractor Field Safety Audit
- Safety Observation
- Improving safety audit programme.
- Improving quality of incident investigation.
- Influencing for safety orientation.
- Action planning.

FACULTY

Internationally qualified faculty from NPC and industry, with experience in implementing safety management systems in chemical, mining, aerospace, nuclear, biological, oil & natural gas, construction sectors, etc.
