

E-Learning Course Title: Agile Software development

Registration Fee (including GST):- 2124/-

About eLearning Program: - This course provides an overview of Agile Software Development Methodologies.

E-Learning Course Coverage: - This course is covered in 4 modules. Each module takes us through the various concepts of Agile Software development processes. Agile software development refers to methodologies centred around the idea of iterative development, where requirements and solutions evolve through collaboration between self-organizing cross-functional teams. The details of each module are as below:

Module 1: Software Project Management: Why software projects fail, and ways to overcome.

Module 2: SDLC Models: Understanding SDLC models and their applications

Module 3: Agile & Scrum: How are they related

Module 4: Modern SDLC Models – Effective SDLC processes

Module 5: Recap: Revisiting the concepts learned

Thanks & Regards
