

E-Learning Course Title: **Capacity Building of Surveyors**

Registration Fee (including GST):-Rs 1500/-(Rupees One Thousand Five Hundred only)

About eLearning Program: - Field surveys are the most commonly used methods of data collection. It has been observed that field surveys are advantageous over other forms of data collection as they allow human interaction which results in higher response rates from respondents. The field surveys are time consuming and cumbersome as samples from large population have to be covered. This requires surveyors to be trained and developed as utmost care is required in these surveys. The survey agencies usually face problems in collecting data and managing data while carrying out these surveys. This ELearning is meant for capacity building of surveyors that covers the basics and importance of surveys, method of selecting sample from population, sampling technique to be selected for particular survey, data collection tools & methods to be employed and data analysis techniques to be adopted including use of computers for meaningful synthesis of data. This course would help surveyors in improving their productivity by covering more beneficiaries in less time using appropriate tools and would also improve their capability.

E-Learning Course Coverage:-

Module-1: Basics of Survey

Module-2: Sampling & Sampling Techniques

Module-3: Data Gathering Tools & Methods

Module-4: Data Analysis

Module-5: Correlation & Regression Analysis

Register to learn :

- Basics of survey that includes pre-survey, survey at site & post-survey activities
- Selection of sample & sampling technique to be adopted for survey
- Data gathering and data analysis using available tools & methods
