

E-Learning Course Title: An Introduction to Economic Theories

Registration Fee (including GST):- 1500/-

About eLearning Program - This course provides an introduction to Economic Theories. Introduction to fundamental principles of modern economic theory, including the major analytical tools of price and income theory. Includes foundational concepts of both microeconomics and macroeconomics.

The objective of this course is twofold. First, to enable you to understand different economic viewpoints, linked to important traditions in economic thought, and basic economic concepts belonging to these theoretical perspectives. Second, to enable you to do some basic economic calculations that are important in economic life, such as calculating an inflation rate, and in economic policies, such as estimating the rough gains from trade for both trading partners, and in economic arguments, such as in calculating utility maximization with given prices and budgets.

E-Learning Course Coverage: - This course is covered in 2 modules. Each module takes us through the various concepts of Economic Theories.

Thanks & Regards
