PROJECT NOTIFICATION

Ref. No.: 22-IP-11-GE-WSP-A-PN2200105-002

Date of Issue	30 November 2022
Project Code	22-IP-11-GE-WSP-A
Title	Workshop on Organizational Innovation Management on Key Standards and Frameworks
Timing and Duration	20–22 February 2023 (three days)
Hosting Country(ies)	APO Secretariat
Modality	Digital Multicountry
Implementing Organization(s)	APO Secretariat
Participating Country(ies)	All Member Countries
Overseas Participants	38
Local Participants	12
Qualifications of Participants	Policymakers and government officials, representatives of government enterprises, staff of public organizations and think tanks, and academics working on public-sector innovation management systems and standards, quality management systems, and performance management systems
Nomination of Participants	All nominations must be submitted through National Productivity Organizations of member countries
Closing Date for Nominations	6 February 2023

1. Objectives

- a. Share recent advances in innovation management systems applied in the public sector.
- b. Examine the benefits and impacts of innovation management systems on the productivity performance of public-sector organizations.
- c. Learn about the best practices of innovation management systems in public sector.

2. Background

In the Asia-Pacific region, innovation is a key driver of productivity and inclusive economic growth, which requires enabling institutions (ADB, 2020). Based on the World Bank's World Development Indicators Database (2022), Asia-Pacific countries innovate more than other regions, such as Latin America and the Caribbean, although high- and upper middle-income countries dominate the rankings and play a disproportionate role in major innovation indicators. However, R&D plays a greater role in the Asia-Pacific, with a correspondingly higher impact on technological advances.

Innovations in the public sector are becoming more urgent, requiring an educated, skilled workforce. Citizens are demanding better services without spending more, new technologies are presenting new ways of doing things, and new societal challenges are continuing to emerge. Thus, enhancing the innovation capabilities of the public sector will improve the ability to understand and respond to changing conditions, pursue new opportunities, and leverage the knowledge and creativity of people within organizations, external stakeholders, and partners.

The ISO 56002:2019 Innovation Management System—Guidance provides a framework for all types of organizations seeking to strengthen their innovation capabilities. This workshop will discuss this guidance and its applications to the public sector. Participants will be introduced to recent advances in organizational innovation management systems applied in the public sector and examine their impacts, including those on productivity performance, through examples of public-sector best practices.

3. Scope, Methodology, and Certificate of Attendance

The duration of each day's sessions will be around three hours comprising presentations by resource persons, group discussions, and other relevant learning methods. The indicative topics of the presentations are:

Day 1:

- Definition of innovation management systems and frameworks
- Innovation management systems applied in the public sector

Day 2:

- Linking innovation management systems with the performance and productivity of public-sector organizations
- Tools, methods, and frameworks for public-sector innovation

Day 3:

- Success factors in adopting innovation management systems in the public sector
- Strategies and policy programs for encouraging innovation in the public sector

The detailed program and list of resource persons will be provided one week prior to the sessions.

The participants are required to attend all sessions. This full participation is a prerequisite for receiving the APO certificate of attendance.

4. Financial Arrangements

The APO will meet the assignment costs for resource persons, and for a virtual site visit(s), either broadcast live or recorded as applicable.

5. Implementation Procedures

Please refer to the implementation procedures for APO digital multicountry projects circulated with this document.

Dr. Indra Pradana Singawinata
Secretary-General
