2. PROGRAMME THEME

Stress is universal. Many people find that they have to contend with the pressures generated by a fast moving and highly competitive work environment. Some stress is essentially good because it stimulates you to face challenges. However, excessive ongoing stress causes a constant stimulation of the body's stress reaction system. Stress Management Training will provide a toolkit of tips and strategies to reduce stress both at home and work Place.

Strategic Financial Planning and Implementation ensures accountability aligning with actionable and achievable goals and objectives. This involves setting and committing to new standards of performance with built-in contingencies for all situations. Periodic reviews and links to operational plans help to make the strategy a reality. Strategic Financial Planning is often perceived as being relevant only to those who are employed in the higher ranks of an organisation's Finance Department. This is not, or certainly should not be, the case.
