

National Productivity Council

Training Programme on

**Policy Entrepreneurship, Program Design and Development
Initiatives – Thematic Experiences and Futuristic Roadmap**

09th– 13th September 2024
**National Capital Region or
Delhi**

1. ABOUT NPC

National Productivity Council (NPC) is an autonomous organization under the Department of Promotion of Industry and Internal Trade, Ministry of Commerce & Industry, Government of India. The present expertise available in NPC has a resource base of professionals from fields such as Economics, Regional Development, Industrial Engineering, Human Resource Management, Energy, Environment, IT, Project Monitoring and Evaluation, Research Studies and Baseline Surveys. In addition, services of external professionals and subject matter specialists are also sought on need basis, depending upon the nature and scope of work. NPC extends services from its headquarter at New Delhi and 12 regional offices across the country manned by more than 120 full time professionals. NPC has professionals from diverse fields to provide Consultancy, Capacity Building and Project Monitoring Unit (PMU) services to various organisations including Central Government Ministries and State Governments.

2. PROGRAMME THEME

The process of economic growth and development is a dynamic process engaging the various agencies and stakeholders from citizens to industry to enterprises across the product manufacturing and services provisioning components and the supply chain and the role of public sector and private sector and institutions and the government are significant and fairly demarcated. Yet there are deep interlinkages and two way and multidirectional processes pertaining to innovations in products and services provisioned and the diffusion across the demographic and geographic terrain that get guided by the policy frameworks and decision-making processes in the various regimes and democracies having their own varieties of institutionalised components that generate initiative and implement action across thematic areas and disciplines. A good bureaucratic framework and private sector organization and ecosystem play pivotal role in the progress and forward movement and the coordination and cooperation within the institutionalised architecture becomes crucial and accordingly policies, vision, missions in public and private sector and government and related entrepreneurship leadership in conceptualising strengthening and implementation of the resource allocation as well as autonomous resources flow occur and the output and outcomes of economics and development activity get created and distributed. The importance of policy entrepreneurship, policy making and program design and project implementation action alongside project steering and monitoring and evaluation across Ministries and economic sectors play key role in the economic growth and development process.

This residential training programme makes a fresh foray into the various dimensions of policy entrepreneurship and program design and project /schemes implementation and M&E process in the national and regional (urban, rural) development context and seeks to add value to the policymaker and programmes, scheme /project designers and implementors by the sharing of the various case studies in the menu of policy and programme initiative and engagement in a series of case exercises for hands on collective experience across thematic and subject areas as reflected further in the brochure section 4.0.
