

# Virtual Webinar: Lean – History, Fundamentals & Principles

**Lean Manufacturing** is the most versatile improvement concept for industries. It is a systematic, continuous improvement approach that concentrates on creating more value for customers by eliminating activities that are considered waste, i.e. any activity or process that consumes resources and adds cost or time without creating value for the customers. In the web talk, the journey of lean since inception, its evolution, principles, concepts have been described in very interesting way. It would help the participant to establish "Lean Thinking" in their organizations.

## Webinar Coverage:

1. Inception & Evolution of Lean Manufacturing
2. Fundamental Concepts of Lean Manufacturing
3. Principles and applicability of Lean Manufacturing
